N. K. PUBLIC SCHOOL

HAPPY

SUMMER HOLIDAY

HOLIDAY HOMEWORK BOOKLET

97855 00061 / 97855 00042

Dear Parents and Students,
Warm Greetings!

The much-awaited summer holidays are here — a 45-day journey filled with joy, exploration, and the chance to create lasting memories. While vacations are a time to relax and recharge, they are also a golden opportunity to nurture creativity, curiosity, and closer family bonds.

To make this summer truly meaningful, we have curated a Summer Holiday Homework Booklet filled with engaging, creative, and thoughtful activities. These tasks are designed not just to sharpen academic skills, but also to encourage children to connect with family members, reduce screen time, and learn valuable life lessons.

Parents, we seek your active partnership in this journey. Your involvement will help your child find joy in learning beyond books, develop social-emotional skills, and create wonderful memories with family.

We have specially included tasks that encourage children to:

- **Spend time with grandparents** — listening to family stories, learning traditional games, or helping them with simple tasks.
- **Connect with relatives and cousins** — through letter writing, phone calls, or short visits.
- **Understand the importance of safety and responsibility** — like practicing safe electricity use, turning off devices when not in use, and learning simple home safety tips.
- **Engage creatively with parents** — through cooking sessions, DIY home projects, storytelling, gardening, and shared reading time.

Special Parent Assignments:

- **Mother's Time:** Help your child learn a traditional family recipe or craft. Spend one day each week creating something together and documenting the experience.
- **Father's Time:** Organize a weekly "safe energy" project — teach them how to save electricity at home (e.g., switching off lights, unplugging chargers) and create a simple 'Energy Saver' chart together.
- **Grandparents' Moments:** Encourage your child to interview grandparents about their childhood, write a short story, or create a scrapbook titled "Stories from Grandma and Grandpa."
- **Cousins' Connect:** Plan a small virtual or real family gathering where cousins can share a song, poem, or short performance.

Through these shared activities, your child will not only keep learning but will also experience the joy of bonding with loved ones — an education that goes beyond textbooks.

Let's work together to make this summer a safe, productive, and unforgettable experience for our children!

Wishing you a happy, safe, and sunny vacation!
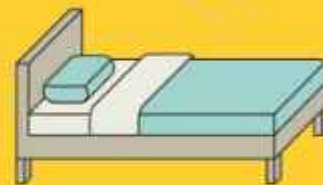

Warm Regards,

Team NKPS

SCHOOL HOLIDAY RULES

No electronics (mobile phone, laptop, tablet or TV) until you have done the following :

- HAVE YOU MADE YOUR BED

- HAD BREAKFAST

- 20 MINUTES OF READING

- 20 MINUTES OF COLOURING OR WRITING

- DO YOUR DAILY CHORE

- PLAY OUTSIDE FOR 30 MINUTES

- MAKE OR BUILD SOMETHING CREATIVE (LEGOS, TOYS, CRAFT)

- HELP SOMEONE IN THE FAMILY

SUMMER HOLIDAY HOME WORK : 2025-26

CLASS : V

हिन्दी–

➤ कहानी लेखन – लालची कुत्ता, शेर और हिरण (व्याकरण को कॉपी करें)

➤ सुलेख लेखन – 10 पेज (सुलेख कॉपी में करें)

English-

➤ Write chapter-3 "**The Rats and the Elephant**" in cursive notebook in a good handwriting.

E.V.S-

➤ Do the given worksheet in EVS notebook:

Read the following cases carefully and answer the questions given below:

1. Many families move from one place to another. This is called migration. People migrate for different reasons. Ramu's family moved from a village to a city because his father got a new job in a factory. Meena's family shifted to another town after a flood damaged their home. Ali's parents moved to a big city so Ali could go to a better school. Rina's family left their hometown because there were no hospitals nearby. Some families move to find work, while others move for safety, better education, or health services. Sometimes people migrate to be with their relatives. Migration can be hard, but it also brings new chances. When families move, they may feel sad to leave friends but happy to find new places and make new friends.

Questions:

(1) What is migration?

(2) Why did Ramu's family move?

(3) What caused Meena's family to migrate?

(4) Why did Ali's family move to a big city?

(5) Think and Write: How might families feel when they move to a new place?

(6) What is one reason Rina's family moved?

(7) Explore: Can you think of a reason a family might move that was not in the passage?

(8) Think and Write: What are some challenges people face when they migrate?

(9) Name two services families might move for.

(10) Explore: If you had to move to a new place, what would you miss the most and why?

2. We all live with our families and friends. These people are called our relations. Relations are important because they care for us, help us, and share happy and sad moments. Parents, grandparents, siblings, and friends all play different roles in our lives. We should respect them, talk politely, and help them. Good relations are built with love, trust, and kindness. Sometimes we may disagree, but it is important to solve problems calmly. Understanding others' feelings helps us stay happy and united.

Questions:
   (1) Why are relations important in our lives?
   (2) Name two ways we can show respect to our family members.
   (3) What should we do when we have a fight with a friend or sibling?
   (4) How do our grandparents help us?
   (5) What qualities help to build good relations?
   (6) If your friend is sad, how can you support them? (Life skill)
   (7) What will happen if no one in the family listens to each other? (Critical thinking)

3. Everyone is special in their own way. Some people may not be able to see, speak, hear, or walk, but they still have talents and dreams. The Braille script helps blind people read and write. It was invented by Louis Braille, who was blind himself. Braille is made of small raised dots that can be felt by fingers. People who cannot speak or hear use sign language to talk. It is a language made with hand signs and expressions. Cerebral palsy is a condition that makes it hard for some people to control their body movements, but they can still learn and grow with help. We must respect and help everyone. They are strong and smart in their own way.

Questions:
   (1) Who invented Braille script?
   (2) What is sign language?
   (3) THINK: How can we help children with cerebral palsy in school?
   (4) LIFE SKILL: Why should we respect everyone's differences?

Computer Science-
➤ Do the given worksheet in Computer Notebook.
Q.1 Draw and colour following icons -
   (a) This PC   (b) Recycle Bin   (c) Network
   (d) Start Button   (e) Google Chrome
Q.2 Write the shortcut keys combination for ---
   (a) To open a file   (b) To close a file   (c) To undo
   (d) To copy a content of file (e) To redo
Q.3 Write 2 names of Operating system-
Q.4 Write one example for each generation (1-5) of computer --
Q.5 Write the inventor name of each
   (a) Difference Engine   (b) Pascaline
   (c) Tabulating Machine   (d) Mark -1

Maths-

➤ Solve the given worksheet in Mathematics notebook.

Q.1 Fill in the blanks:

    (a) 23434 = _____ + _____ + _____ + _____ + _____

    (b) If the number is written as smallest to biggest known as _____.

    (c) Seventy eight thousand fifty two in numerals _____.

    (d) Quotient of 400 ÷ 40 is _____.

    (e) If 200 is multiplied by zero then product is _____.

Q.2 Find out the place value of 7 and 4 in the following numbers

    (a) 84573   (b) 57744

Q.3 Write the smallest and the biggest 5-digit numbers, using the digits- 5, 0, 1, 3, 8

Q.4 Solve:

    (a) 7325 + 38 +162   (b) ३५६२ + २७४६

    (c) 3604 + 220 – 1456   (d) ६७३२ + ३६४६

Q.5 Multiply:

    (a) 235 × 43   (b) 255 × 37   (c) 678 × 280

Q.6 Divide:

    (a) 345 ÷ 16   (b) 5000 ÷ 20   (c) 4536 ÷12

Q.7 Word problems:

    (a) A farmer had 12,785 apples. He sold 7,694 apples in a week. How many apples are left with him?

    (b) A factory produces 7,250 pens in a day. How many pens does it produces in 12 days?

    (c) There are 3,860 chocolates to be packed equally into 8 boxes. How many chocolates will each box contain?
